

kevin zhang

Web developer

Passionate and results-driven Web Developer proficient in modern front-end and back-end technologies, including JavaScript, React.js, Node.js, and Express. Skilled in building responsive, high-performance applications with strong problem-solving and debugging capabilities. Dedicated to continuous learning and contributing innovative solutions to dynamic tech environments.

Experience

Internship | CYTS Investment Holding Ltd., Shenzhen | 06/2024- 09/2024

- Collaborated with senior developers to learn and understand the company's internal technology stack and frameworks, including React.
- Utilized debugging tools and techniques to locate and resolve small issues in the codebase.
- Assisted in the development of new features by writing clean, maintainable code and following company coding standards.
- Gained hands-on experience with Git for version control and collaborative development.

Warehouse Associate | IKEA, HALIFAX | 11/2017- 08/2023

- Managed inventory accuracy and material movements using company software.
- Operated material handling equipment to ensure seamless logistics.
- Assisted in processing shipments and warehouse organization.

Academic Projects

Personal Portfolio Website

- Built a personal portfolio using Next.js, TypeScript, and Tailwind CSS to showcase projects and skills.
- Designed a modern, responsive UI following best UX/UI principles.

Martock Website Redesign

- Redesigned the home and learning pages using React, Tailwind CSS, and Figma to enhance UX.
- Focused on improving UI consistency and brand aesthetics.

Basketball Fans Hub

- Developed a full-stack web application using Express.js and React.
- Implemented CRUD functionality for player profiles, optimizing database queries for performance.
- Created an intuitive UI for user-friendly player data management.
